

APPLYING FOR A CUSTOMER CARD (V2):

Wholesale customers may apply for a customer card (V2) to enter the Market before the official opening hours. The number of new cards to be issued by the facility management office is limited.

CONDITIONS

The vehicle used for procurement must be owned by the producer or the wholesale business (to be proved by presenting the registration certificate).

Certification of fruit and vegetable wholesaler activity (registered in the individual entrepreneur's license or, in the case of a company, certificate of incorporation not older than 30 days)

High volume procurement – with weekly frequency, supplying and distributing goods to clients and shops, great distance from the capital – may justify the issuance of the V2 customer card. The application for the card, along with copies of the above-mentioned documents, phone number and email address must be submitted to the Wholesale Market's facility management office in writing.

CONDITIONS OF USE FOR EXISTING (ALREADY ISSUED) CARDS

The money deposited on the customer card (V1, V2) can be used to pay the entrance fee defined in the price list. The card can be topped up with money equivalent to 10 entries at the main cash desk of the Market.

The V2 card can be issued if the ownership of the vehicle used for buying goods is proved by presenting the copy of the vehicle's registration certificate. The actual load capacity of the vehicle must be at least five tons. The V2 card can only be used for the entry of a vehicle registered in the application.
